CONTENTS

Tectonophysics Volume 166

Special issue on Quantification of Earthquakes and the Determination of Source Parameters (edited by D. Denham)

List of Authors VII

Preface VIII

The Richter scale: its development and use for determining earthquake source parameters
Boore, D.M. (Menlo Park, Calif., U.S.A.) 1

Local magnitude determined from a simulated Wood-Anderson seismograph
Wang, J.-H., Liu, C.-C. (Taipei, Taiwan, R.O.C.) and Tsai, Y.-B. (U.S.A.) 15

Quantification of tsunamigenic earthquakes by the M_t scale
Abe, K. (Tokyo, Japan) 27

Gutenberg's surface-wave magnitude calibrating function: theoretical basis from synthetic seismograms
Panza, G.F. (Trieste, Italy), Duda, S.J. (Hamburg, F.R.G.), Cernobori, L. (Trieste, Italy) and Herak, M. (Zagreb, Yugoslavia) 35

The quantitative characteristics of earthquake sources as determined in the siesmological practice of the U.S.S.R.
Kondorskaya, N.V., Zakharova, A.I. and Chepkunas, L.S. (Moscow, U.S.S.R.) 45

Scaling law and its applications to earthquake statistical relations
Chen Peishan and Chen Haitong (Beijing, P.R. of China) 53

A very broad band inversion method for the recovery of earthquake source parameters
Ekström, G. (Cambridge, Mass., U.S.A.) 73

Some pitfalls and trade-offs in source parameter determination using body wave modeling and inversion
Wagner, G.S. and Langston, C.A. (University Park, Pa., U.S.A.) 101

Interpretation of seismic pulse duration in terms of a propagating rupture: a method and case histories
Pearce, R.G. (Delft, The Netherlands) and Stewart, R.C. (Reading, Berkshire, U.K.) 115

Earthquakes associated with diffuse zones of deformation in the oceanic lithosphere: some examples
Chen, W.-P. and Grimison, N.L. (Urbana, Ill., U.S.A.) 133

Regional spectral scaling relations of source parameters for earthquakes in the Baltic Shield
Kim, W.-Y., Wahlström, R. (Uppsala, Sweden) and Uski, M. (Helsinki, Finland) 151

Focal mechanisms of small earthquakes and the stress field in the western Quebec Adirondack region
Mareschal, J-C. and Zhu Pei-Ding (Montreal, Que., Canada) 163

Source complexity of small earthquakes near Matsushiro, Japan
Davis, P.J., Sacks, I.S. and Linde, A.T. (Washington, D.C., U.S.A.) 175

Preliminary reference calibrating functions for body-wave magnitudes: refracted P-waves
Duda, S.J. (Hamburg, F.R.G.), Yanovskaya, T.B., Its, E.N. (Leningrad, U.S.S.R.) and Nortmann, R. (Hamburg, F.R.G.) 189

Spectral magnitudes, magnitude spectra and earthquakes quantification; the stability issue of the corner period and of the maximum magnitude for a given earthquake
Duda, S.J. and Kaiser, D. (Hamburg, F.R.G.) 205

Source parameters of earthquakes in the Strait of Messina, Italy, during this century
Bottari, A. (Messina, Italy), Capuano, P. (Milan, Italy), De Natale, G. (Ercolano, Italy), Gasparini, P. (Naples, Italy), Neri, G. (Catania, Italy), Pingue, F. (Ercolano, Italy) and Scarpa, R. (Aquila, Italy) 221

Lower Adratic Sea seismic sequence (January 1986): spatial definition of the seismogenic structure
Console, R., Di Giovambattista, R., Favali, P. and Smriglio, G. (Rome, Italy) 235

Near earthquake hypocentre determination: the accuracy problem
Kondorskaya, N.V., Slavina, L.B. and Bruk, M.G. (Moscow, U.S.S.R.) 247

Intensity relations for Australian earthquakes
Greenhalgh, S.A. (Bedford Park, S.A., Australia), Denham, D. (Canberra, Australia), McDougall, R. (Bedford Park, S.A., Australia) and Rynn, J.M. (St. Lucia, Qld., Australia) 255

Determination of ancient earthquakes from dimensions of observed seismodislocations
Khromovskikh, V.S. (Irkutsk, U.S.S.R.) 269

Research Papers

Basement control of structure in the Gettysburg rift basin, Pennsylvania and Maryland
Root, S.I. (Wooster, Ohio, U.S.A.) 281

Doming mechanisms and structural development of two domes in Ramon, southern Israel
Baer, G. and Reches, Z. (Jerusalem, Israel) 293

Opening of the Sea of Japan back-arc basin by asthenospheric injection
Tatsumi, Y. (Kyoto, Japan), Otofuji, Y. (Kobe, Japan), Matsuda, T. (Himeji, Japan) and Nohda, S. (Kyoto, Japan) . 317
Tectonic history of granitic bodies in the South Fossa Magna region, central Japan: new evidence from fission-track analysis of zircon
Ito, H., Sorkhabi, R.B., Tagami, T.T. and Nishimura, S. (Kyoto, Japan) 331

Discussions
Natural deformation fabrics of plagioclase: implications for slip systems and seismic anisotropy—a discussion on measuring and interpreting plagioclase preferred orientations
Kruhl, J.H. (Berlin, F.R.G.) 345
Mechanics of formation of gold-bearing quartz veins, Nova Scotia, Canada
– Comment
Henderson, J.R. (Ottawa, Ont., Canada), Wright, T.O. (Washington, D.C., U.S.A.) and Henderson, M.N. (Washington, D.C.) 351
– Reply
Mawer, C.K. (Albuquerque, N.M., U.S.A.) 352
